PLEASE ADDRESS REPLY TO:  
ENGINEERING AND OPTICAL DIVISION  
PERKIN-ELMER CORPORATION  
NORWALK, CONNECTICUT

March 29, 1957

Dear George:

We have received verbal information from the [redacted] that one of the difficulties in setting the track knob of the Hand Control (both MK I and MK II) is the lack of feel. The provision of click stops to yield this feel was suggested and seemed to me to be a good solution to the problem. As a consequence, we are submitting herewith our quotation for the addition of this feature on both styles of Hand Controls.

25X1  
25X1

<u>Qty.</u>		<u>Unit</u>	<u>Total Cost</u>
10 (minimum)	Click stop provision on Hand Control MK I (PE 152-0022) and/or Hand Control MK II (PE 500-0133)	\$95.00	\$950.00 (minimum)

Delivery: Six weeks from receipt of order.

Quotation: This quotation is subject to change after May 27, 1957.

If fewer than 10 sets of click stops are required our unit price would be higher.

This provision for click stop will be a kit complete with instructions suitable for field installation.

Yours very truly,

THE PERKIN-ELMER CORPORATION
